Callaway Fire Department
Media Release

November 1, 2017

Callaway Fire Department (CFD) just received notice from the Insurance Services Office (ISO) that the city's Public Protection Classification (PPC) of a 5 is now improved to a 3. CFD was evaluated on July 26, 2017 by ISO. ISO grades fire departments on the following criteria:

- Number of firefighters responding to emergencies
- Fire trucks and equipment
- The response time for initial responding units
- Training of personnel & community outreach
- Vicinity of stations to residential & commercial buildings

The Class 3 rating could also mean more savings for City of Callaway residents and business owners with insurance premiums. The rating will go into effect February 1, 2018.
